

IMPORTANT!!!
Please Read Carefully

It is our objective to make the initial visit for your child as pleasant as possible. However, please be aware that the initial interview can last up to two hours. Approximately 30-45 minutes will be spent with the parents alone, 30-45 minutes with your child alone and 30-45 minutes for feedback with parents and child or just parents, depending on the situation. During this time your child will be in the waiting room and will **require** adult supervision. **FOR THIS REASON, IT IS MANDATORY THAT YOU BRING SOMEONE WITH YOU TO WATCH YOUR CHILD DURING THE PARENT INTERVIEWS.** Exceptions may be made **only** for children age ten and older who are content reading a book or playing alone, etc. In this case an additional person is optional.

If your child is under the age of ten and you are unable to find someone to sit with them during the appointment, please contact our office prior to your appointment and someone will assist you in scheduling your appointment in such a way that the parents and child are seen on different days (one hour each).

Your cooperation is greatly appreciated.

Thank you!
